

Postsecondary National Policy Institute

Summer 2025 Sponsorship Opportunity

"PNPI truly stands out with their intentional programming, experienced speakers, and timely topics. PNPI has helped me dive deeper into the labyrinth that is education policy while building bicameral and bipartisan friendships along the way." – PNPI Alum

PNPI's mission is to increase the knowledge, capacity, and diversity of federal postsecondary policymakers, leaders, and thinkers. The only professional development provider in Washington, D.C., dedicated exclusively to higher education policy, we provide our community with a substantive and collegial foundation on which to build federal policies that drive positive outcomes for students and their families.

We believe that people produce better policy when they expand their knowledge base, that individuals strengthen collegial bonds when they come together in shared learning, and that it is essential to have diverse voices in the rooms where federal policy is being made.

PNPI currently boasts over 1,100 alumni across our community-based and congressional programs. Alumni describe PNPI as an informative, relevant, and trustworthy organization that hosts engaging and substantive events, is effective at achieving its mission, and has a deep understanding of federal postsecondary policy. All our efforts are focused on building a community of policymakers and policy thinkers who are thoughtful, well-informed, connected to research, and reflective of the students that they serve.

Our work provides sponsors an opportunity to impact current and future policymakers, as well as researchers, advocates, leaders, and students in the space.

We support federal policymakers and those who influence them because we understand that they are uniquely situated to have a tremendous impact on advancing student access and success. We are committed, innovative, mission-driven, and unique in the higher education space. **Sponsors help us achieve our goals.**

Summer 2025 Opportunities

PNPI is proud to offer the following sponsorship opportunities to our community partners:

Federal Student Aid Community Boot Camp (July 10–11, 2025)

Modeled after our congressional work, community boot camps give participants, including students, a chance to deepen their postsecondary knowledge while networking with professionals in the field. Our July in-person boot camp focuses on Federal Student Aid (FSA).

"[PNPI's boot camp] was phenomenal. I loved every minute of it. The speakers, the content, the structure, the chance to network and meet other young people, everything. Honestly, it was hands down the best seminar/forum/conference I've ever attended in D.C."

– PNPI Alum
