

## Event Design

**Enlist PNPI to ensure your next in-person or virtual event is impactful and engaging. From event design to speaker prep and event evaluation, work with us to ensure you meet your stated goals.**

Share your goals and objectives, and we can do the rest: prepare an agenda with content ideas, suggested activities, and timing; recommend and conduct outreach to speakers; suggest participant readings and pre- or post-work; put together a post-event evaluative tool; and suggest meaningful follow-up. We can also facilitate the event and write up your event evaluation.

**We're experienced in your event type.** We can design briefings, boot camps, seminars, courses, workshops, and more.

**Our goals are your goals.** We'll keep your event focused and engaged and ensure your stated objectives are met.

**We have flexible options to fit your budget.** The cost depends on the type of event, the number of attendees, the length of the meeting, and the number of services you require from PNPI. We offer a 10% discount for nonprofit and government teams.

### Past Participants Say:

“ PNPI took care of all the details and logistics, allowing our team to focus on increasing policymaker knowledge on the issues we care about.”

## About PNPI Workshops & Facilitation

As part of our efforts to advance the federal postsecondary policy field, we offer workshops, meeting facilitation, and event design services designed to support teams or organizations of any size. Bringing years of experience as policymakers, content creators, teachers, and facilitators, we partner with groups interested in building their capacity to achieve long-term impact.
