

PNPI Sponsorships

“PNPI truly stands out with their intentional programming, experienced speakers, and timely topics. PNPI has helped me dive deeper into the labyrinth that is education policy while building bicameral and bipartisan friendships along the way.” – PNPI Alum

PNPI’s mission is to strengthen the knowledge and capacity of federal postsecondary policymakers, leaders, and thinkers. Through high-quality professional development, we engage a community of more than 1,300 alumni across our community-based and congressional programs, providing a substantive, collegial foundation for developing federal policies that improve students’ lives.

Our work centers on building a community of policy doers and thinkers who are thoughtful, well-informed, grounded in research, and reflective of the students they serve. Committed, innovative, and mission-driven, PNPI is unique in the higher education policy space.

Our work provides sponsors with an opportunity to impact current and future policymaking and help us achieve our goals.
